GUIDELINES FOR CREATING PDFS FOR SUBMISSION TO CSF:

- ➡ DO NOT CREATE PDFs WITH ACROBAT PDFs WRITER.
 You will need to purchase the Full version of Adobe Acrobat, there is a difference. Make sure that you are using the correct JOB OPTIONS (You do not want to use Distillers default job options – ebook, press, print, screen. For information on creating proper Job Options for Catholic San Francisco please call advertising department for job options settings information.)
- ➡ Avoid building colors using pantone/pms/spot color. Typically the color will change when it rips into CMYK
- ➡ All colors should be CMYK and not RGB (or LAB).
- ➡ DON'T USE TRUE TYPE FONTS (TT).
- ➡ Make sure ALL fonts are embedded.
- ➡ Always flatten the PDF before sending it over.
- ➡ Black text should always be 100% black – don't use rich black, or 4 color black.
- ➡ Images should be 215% overall ink density or less. Anything above that is considered high.
- ➡ Less is more with ink- there is a 20-27% dot gain on press. Dot gain causes the images to be darker.
- ➡ Make sure your ad is the correct size.

We are not responsible for PDF file that we did not create ourselves. Due to time constraints or technical difficulties, we reserve the right to change/alter, substitute fonts or recreate your ad if it is not working correctly.
